Regional Context

An Australian Government Initiative

Queensland Government

Ipswich and West Moreton is one of 55 regions across Australia; one of 12 regions in Queensland; and one of 6 regions in SEQ .

IWM is a major contributor to the greater SEQ region across the triple bottom line of community, economy and environment.

- Roles of RDAIWM:
- Help integrate the efforts of all three levels of government for the sustainable development of Ipswich and West Moreton
- Provide feedback to Governments about how to improve services in the IWM region

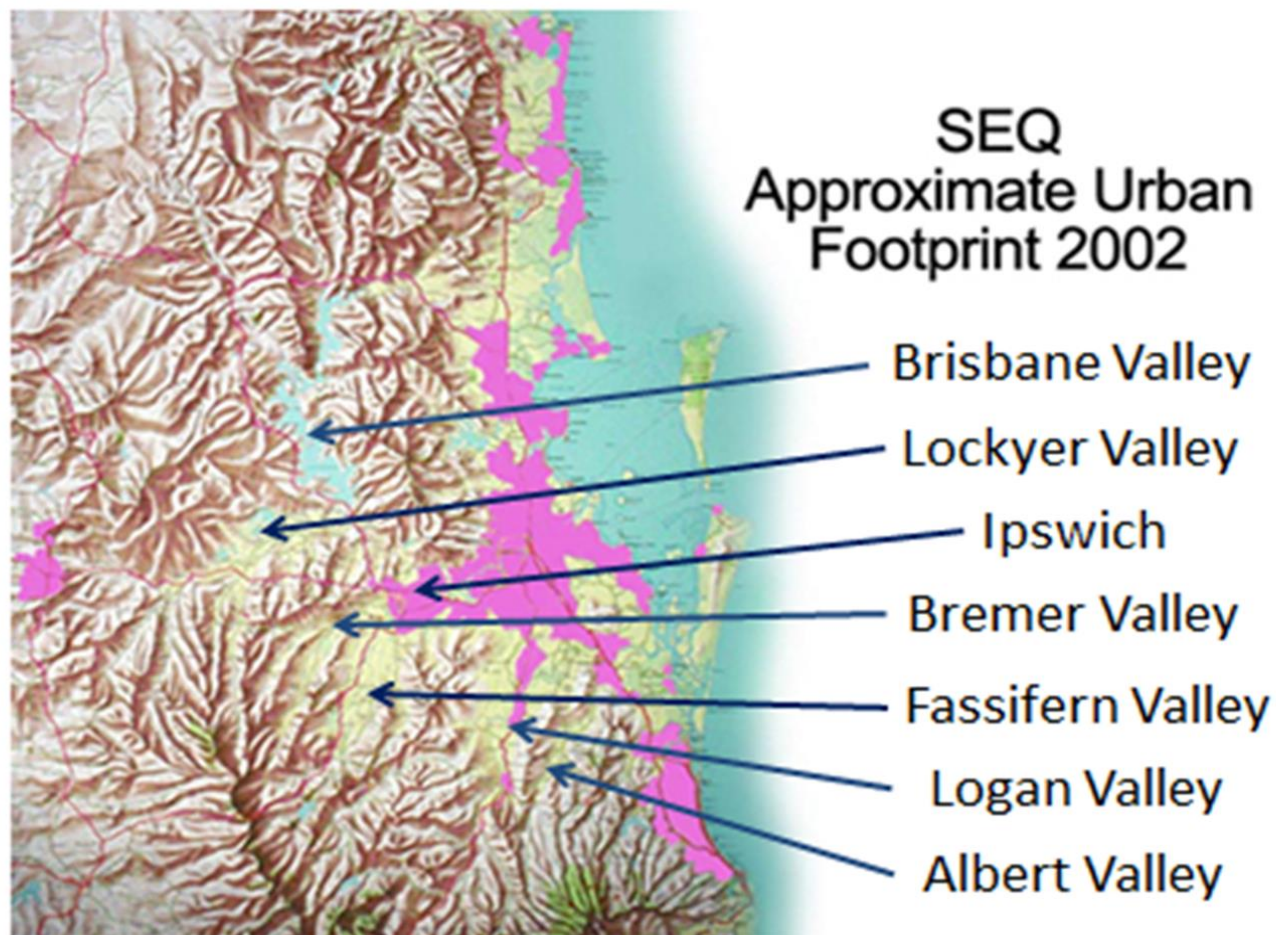

- RDA Committees are about sustainable regional development.
- Sustainable development is best planned at the regional scale (SEQ Regional Plan and Infrastructure Plan) with most sustainability strategies devolved to the local level.
- Sustainable development can be delivered at both the local level and the regional level.
